WHAT THE END CREDITS ANSWERED

The end credits are in. They filled cast, full crew, executive producers, thanks and the AFI boilerplate. Three things they did NOT settle: no sound designer is named anywhere, the fellows list calls the director Jordan Uwhubetine where everything else says Jordan Betine, and the crawl is dated MMXXV against a 2026 completion.

NEXT, NEEDING NOBODY

- 4 Ask Jordan: Betine or Uwhubetine?
- 5 Email the 3 festivals for laurels
- 6 Find the sound designer
